

Easy Chocolate Eggs

Yummy Chocolate-Flavoured treats

Ingredients:

- 1 Packet of plain sweet biscuits – such as Milk Arrowroot, Marie Biscuits, Digestives
- 1 can of Sweetened Condensed Milk
- 1 cup of desiccated coconut
- 2 dessertspoons of Cocoa Powder
- Desiccated Coconut (extra) for coating

Method:

1. Crush the biscuits until they look like a mixture of sand & small pieces. Put them into a mixing bowl.

To crush the biscuits you can either.

- *Crush the biscuits in a food processor – blitz in short bursts until the mix looks like dried breadcrumbs.*
 - *Put the biscuits in small batches in a mixing bowl and break them up with a potato masher.*
2. Add the sweetened condensed milk, coconut and cocoa powder, mix well with a spoon.
 3. Roll small amounts of the mixture into egg shapes, and then roll them in desiccated coconut to cover them.
If you have a small cookie scoop to portion them out before rolling it saves mess.
When cooking with children, give each child a small bowl of the mix to roll.
